

## All kinds of art in Childers exhibition

One of the largest art exhibitions ever staged outside a capital city was opened at the Childers Regional Gallery on Saturday. Among the 23 noted artists exhibiting in the New Directions art exhibition was Sam Dimauro (left) who is explaining one of his works to the Member for Isis, Bill Nunn. The Suncorp-sponsored exhibition will run for three weeks with some of the more unusual art works including paper collage, print making, quilting and jewellery.
