Cultivating lawn 'rare art'

DO you dream of having the perfect lawn?

Well dream no more, you can have the perfect lawn you've always wanted and artist Sebastian Di Mauro knows how.

For the next month Sebastian Di Mauro will be exhibiting his 'Suburban Abstractions 3' at the Gladstone Art Gallery and Museum showing just how beautiful grass can be.

Sebastian said Australia was very dry.

"Every Australian loves a perfectly green lawn, but sometimes it is impossible in this dry country," he said.

"I thought why not bring the outdoors, indoors and I created a piece of art using artificial perfect green grass."
